**Comments from volunteers:**

1. Bumper to bumper traffic at 15th and Highland Intersection. Most walkers going to A & W and Dutch Bros. then back across the intersection. From 5-5:15, more walkers coming from schools (after school sports?)
2. Dry Canyon trail in good condition

3. Having the count sign was a real help as two people stopped by to ask about the program
4. At 19th & Maple, I didn't observe many people biking, walking, or rolling, however did notice very few people actually come to a complete stop at this intersection (maybe 10%)
5. More people going east or west on Black Butte Boulevard then crossing Black Butte at the crosswalk
6. US 97 & Veterans: talked to workers at Taco Bell and Dominoes who skateboard to work and don't like the intersection, but don't see any choice; saw cyclists riding on sidewalk; car turning movements occurring even during the walk signal; many users peds/skateboarders no sidewalks on north west block along US 97
7. All "other" on Dry Canyon at Obsidian Stairs were skateboarders; live near here and notice that it is well used in morning by students, joggers and dog walkers
8. SE Evergreen and Franklin: only partial sidewalk on left side of Evergreen; might be more walkers if sidewalk extended to Lake Avenue
9. Sidewalks and trails in Dry Canyon appear to be in great condition.
10. Dry Canyon @ Obsidian Stairs: Eaglecrest resident using facilities while wife goes to Jazzercise; he suggested finding donors to install more benches; need waster container @ SE stairway-tons of trash on side of stairway; runners/walkers suggest kiosk at Quartz end of trail with water fountain for humans and pets.
11. 9th & Cascade: Sidewalk on NW corner of intersection and sidewalks on NE corners of 9th & Cascade are in poor condition. There is no designated bikelane, bu the roads are in fair condition
