

NOTICE

YOUR STREET MAY BE CLOSED OR RESTRICTED TO TRAFFIC

Dates of work to be performed are

DATE HERE

Hours of work are between 7:00 A.M. – 5:00 P.M.

Intermountain Slurry Seal will be placing a Slurry Seal on your street. **If your street is not completed within the date indicated above, you will be re-notified with the next available date & time to complete your roadway.**

Slurry Seal is a combination of emulsified asphalt and aggregate that is mixed together and placed over the existing asphalt surface. The product is designed to protect and preserve the existing asphalt surface and prolong its integrity. The product, once applied to your roadways surface, can take 3-4 hours to properly cure and receive traffic of any kind. **This product requires that your street either be closed or restricted to traffic during its application. If you need to use your vehicle on the date your street is treated, please park on a nearby street.**

Streets that are to receive this treatment will also have “No Parking” signs placed along the street at least 48 HOURS prior to the work being started. These signs will have specific dates and times that all parking on the street will be restricted. Please look for these on your roadway.

Expect some delays and choose alternate routes if possible. We greatly appreciate your understanding and apologize for any inconvenience this may cause.

PLEASE NOTE THAT ANY VEHICLES PARKED WITHIN THE POSTED AREA ON THE DAYS OF THE STREET RESURFACING WILL BE TOWED.

The oil used in these surface treatments can and will stain your carpets, floors, and other related items if traveled through before it has properly cured. If you get oil on a surface by accident, simple dish soap and water will clean the area if caught before the oil has had time to dry. Otherwise, we recommend a citrus solvent type cleaner. If you have any questions, there will be a representative of Intermountain Slurry Seal on the job site.

Below is the number for our main office.

Or you may refer to www.redmondstreets.com for more information about the project.

Thank you.
