

South US 97 Design Charrette

29-30 October 2013

City Hall, Redmond, Oregon

On October 29 and 30, 2013, the City of Redmond will host a Design Charrette to help property and business owners, stakeholders, and interested members of the public envision the future of the South US 97 Corridor. This interactive, two-day session will build off the June 2010 Plan for the corridor, and will help to better determine the overall design concept for South US 97 in terms of street frontage, access management, and urban design. The plans and drawings that result from this effort will help provide the foundation for an implementation and funding strategy for the Plan.

- Design Team
- Technical Advisory Committee
- City Staff
- Project Advisory Committee
- General Public
- Stakeholders

The public is invited and encouraged to attend the Open Houses at 6:30pm on both Tuesday 10/29 and Wednesday 10/30
